Dear Professor Abid Abid

Thank you for your interest regarding our publications and for choosing us in order to publish your valuable research.

The submitted manuscript has been successfully received.
The research topic of the submitted manuscript is in concordance with the covered disciplines of the selected journal.

Before sending the manuscript for being reviewed, please consider to give a look to our publication procedure:

1. The submission will be independently and blind peer reviewed. The necessary amount of time depends from an article to another, from a reviewer to another; usually, in around a week, we will be able to provide a preliminary opinion. A preliminary review report indicating the acceptance (with or without major content changes) will be issued. A DOI (Digital Object Identifier) is assigned.
2. If the submitted manuscript is accepted, an article processing fee (APC) of 70USD is required in order to continue the publishing process. There are no other processing fees; the editing, the DOI, the publication and the on-line hosting are covered by the APC. There are no pages, content or authors limits of any kind. The processing fee remains the same no matter how many pages, authors, graphic content, etc. the article may have. Also, the status of the submitted manuscript (based on our template or not) has no influence regarding the amount of the processing fee.
3. As modalities of payment we offer: PayPal, 2checkout, Mollie, Netopia (any international credit\debit card is accepted, no matter the currency of the associated account), Apple Pay (from an Apple device, with Mollie), International Bank transfer (SWIFT, worldwide or SEPA, on EU), multicurrency Revolut transfers and Money Gram \ Western Union. Authors from countries that have difficulties on transferring funds abroad are asked to contact us; alternative payments methods (local bank transfers, etc.) are available.
4. After the payment is confirmed, the article will be edited on our publishing format. Based on the preliminary review, further adjustments may be recommended. Always, before publication, the edited article is sent back to the author(s) for last updates.
5. The articles will be published in the current issue of the selected journal.
6. A soft-copy (PDF file) of the article and a certificate of publication (PDF file) is sent to the author(s) after publication. Also, if necessary, an acceptance letter or/and an invoice can be issued.
7. On request, after the issue is closed, hard copies of a section or of the entire issue may be printed and shipped.
8. The author(s) retains the copyrights of the published research, accept(s) that his\their published research will be available on-line under a Creative Commons 4.0 License and irrevocably assign(s) the rights of first publication to the publisher on the selected journal.
9. After the issue is closed, the publication procedure concludes with the activation of the DOI (Digital Object Identifier). An identical copy of the published article is independently hosted on the DOI's server, a hyperlink pointing to the hosted file is available on the article's page. Once activated, the DOI supports versioning and offers visualization, download and citation counters.

In order to begin the publication process please confirm us the acknowledgment of our publishing policies.

Best regards,
Emil C.
