✓ Peer Reviewed

Peer Review Process

The research article submitted to this online proceeding will be peer-reviewed at least 2 (two) reviewers. The accepted research articles will be available online following the proceeding peer-reviewing process. Language used in this proceeding is English or Indonesia.

Peer review is designed to assess the validity, quality and often the originality of articles for publication. Its ultimate purpose is to maintain the integrity of science by filtering out invalid or poor quality articles.

From a publisher's perspective, peer review functions as a filter for content, directing better quality articles to better quality proceedings and so creating proceeding brands. Running articles through the process of peer review adds value to them. For this reason publishers need to make sure that peer review is robust.

Open Access Policy

This journal provides immediate open access to its content on the principle that making research freely available to the public supports a greater global exchange of knowledge.

Ethics Statement

Our ethic statements are based on COPE's Best Practice Guidelines for proceeding Editors.

ENTREPRENEURIAL INTELLIGENCE MANAGEMENT

Novianty Djafri Gorontalo State University Email: noviantydjafri@ung.ac.id

ABSTRACT

This study aims to improve the attitude of solidarity and awareness of the psychological condition of smart entrepreneurial society, creative and innovative thinking in expanding and gaining access. The approach used in this research is qualitative. This research is more emphasis on the disclosure of meaning and process with natural background as a source of direct data. The data analysis techniques used in this study are inductive, conceptualistic techniques in the sense of empirical information obtained, and built with concepts or propositions towards the development of a substantive theory. Data analysis consists of three activities that occur simultaneously, namely: data reduction, presentation data, and withdrawal. The result of the research shows that smart and independent entrepreneur is the achievement of human being as the manager in exerting the power in trying to be smart, creative in developing creative and innovative ideas for the improvement of human resources to be more self-sufficient at the level of the achievement of the opportunity of the prosperity of his life.

Keywords: Entrepreneurial Management, Smart and Independent
