Abstract. Skipjack fish dried fermented as umami flavor. The quality study of amino acids profiles skipjack fish dried product fermented by the fungus *Aspergillus oryzae* was carried out. The observation of fermentation hydrolyzed 3 weeks to amino acids production. The research has quantitative observation method to know amino acids type and concentration by HPLC method (AOAC 1988). The results indicated that amino acids glutamate acid highest concentration then leucine and lysine (9.6%, 5.6%, and 5%).

Keywords: amino acids, fermentation, skipjack
