A **Aubaid K. Alkhafaji** 6 months ago

Hi

This journal is listed in October 2019 Scopus list. It was described as "Trading Journal", Could you please tell me what was ment by Trading Journal?

Best regards

reply

Melanie Ortiz 6 months ago

SCImago Team

Dear Aubaid,

thank you very much for your comment, unfortunately we cannot help you with your request. We suggest you contact Scopus support:

https://service.elsevier.com/app/answers/detail/a_id/14883/kw/scimago/supporthub/scopus/

Best Regards, SCImago Team

M **MT** 8 months ago

You need to put link of official website of each journal..cause as there is no official homepage mentioned here...lot of people create fake websites with this name and start accepting papers...

Its responsibility of scimago to ensure complete info on each journal is mentioned to stop this malpractices from happening.

Thanks,

MT

ABOUT JOURNAL

The Journal of Seybold is a peer-reviewed journal that publishes original papers of high scientific value in all areas of General engineering, computer science, information technology, software engineering, soft computing, computational intelligence, operations research, management science, Business, Management and Accounting, marketing, applied mathematics, statistics, policy analysis, economics, natural sciences, medicine, and psychology, among others. This journal publishes original articles, reviews, technical reports, patent alerts, and case studies on the latest innovative findings of new methodologies and techniques. Discover some of the latest scientific research and achievements by Seybold

Submission Last Date:	Throughout the Year.
Acceptance Status:	In 24 Hours.

Publication Period:	Within 48 hrs after receiving the publication fee.
Frequency:	12 issues per year.

Topics Covered

- ✓ Agent technologies
- ✓ Agricultural traceability and food safety
- ✓ Autonomous Systems
- ✓ Biochemistry
- ✓ Biotechnology
- ✓ Clinical Decision Support
- ✓ Computational Intelligence
- ✓ Data mining and data security
- ✓ Disease detection, management and monitoring
- ✓ Drug Discovery
- ✓ Economic aspects of the service sector
- ✓ Evolutionary Computing
- ✓ Financial Innovation
- ✓ Fraud management
- ✓ Heuristics
- ✓ Agricultural applications
- ✓ Artificial Intelligence
- ✓ Big Data Technologies and Management
- ✓ Biomedicine and bioinformatics
- ✓ Business Information Systems
- ✓ Cloud Computing
- ✓ Computational techniques for service operations
- ✓ Decision theory
- ✓ Distributed intelligence
- ✓ Ecological System Modeling
- ✓ Embedded sensor and mobile database
- ✓ Expert Systems
- ✓ Financial statements analysis
- ✓ Geographic Information Systems
- ✓ Image Processing

- ✓ Information Technology
- ✓ Life science and medical research
- ✓ Management accounting
- ✓ Models of service systems, services as complex systems
- ✓ Neuroscience
- ✓ Pharmaceutical Science
- ✓ Reasoning and inferences
- ✓ Security patterns
- ✓ Service design and modeling
- ✓ Service oriented architecture and technologies
- ✓ Service quality measurement, benchmarking, and management
- ✓ Social Networking
- ✓ Software Engineering
- ✓ Strategic Planning
- ✓ Systems Engineering
- ✓ Teleoperation and telerobotics
- ✓ Virtual Reality
- ✓ Web intelligence and mining
- ✓ Working capital management
- ✓ Image processing
- ✓ Intelligent systems and data mining
- ✓ Machine Learning
- ✓ Markov chains
- ✓ Network management contingency issues
- ✓ Optimization Techniques
- ✓ Policy, privacy, security, and legal issues regarding services
- ✓ Security in software architecture and design
- ✓ Sensor design, sensor-fusion and sensor-based control
- ✓ Service innovation and marketing
- ✓ Service performance measurement and analysis
- ✓ Service risk management
- ✓ Soft Computing
- ✓ Stochastic models
- ✓ Supply Chain Management
- ✓ Telecommunications and Networking Technologies
- ✓ Venture Capital
- ✓ Web informatics
- ✓ Web Services and Technologies

Editorial board

Editor-in-Chief

Prof. Mohammad Khan

Department of Mechanical Engineering, Thermal Processing Laboratory, McMaster University, Canada

Editorial Board

Prof. Nicolas Lee

Technical University of Cluj-Napoca, Romania

Prof. Desmond Xhenz

Nazarbayev University, Kazakhstan

Prof. Xung-Yu

Tatung University, Taiwan

Prof. Kassymbek Xhen

Kazakh National Technical University after K.I. Satpaev, Kazakhstan

Prof. Sebastien Nyle

University of Valenciennes and Hainaut-Cambresis, France

Prof. Theodore Cale

National Technical University of Athens, Greece

Prof. Selra Mahjoub Jha

Preparatory Institute for Engineering Studies, University of Monastir, Tunisia

Prof. Mark Paruch

Institute of Computational Mechanics and Engineering, Faculty of Mechanical Engineering, Silesian University of Technology (SUT), Poland

Prof. Christopher Krasinsky

Moscow State University of Food Production, Russia

Dr. Mohammad Mehdi Rasdi

Bu-Ali Sina University, Iran

Dr. Josep M Berguda

Department of Fluid Mechanics, Polytechnic University of Catalonia, Spain

Dr. Xuhui Ceng

National Renewable Energy Laboratory, USA

Dr. M Perera

School of Engineering and Built Environment, Birmingham City University, UK

Dr. Mohd Bamdad

Department of Mechanical and Automation Engineering, Chinese University of Hong Kong, China

Dr. Baboo Kumar singh

Department of Mechanical and Production Engineering, University of Mauritius, Mauritius

Protected: Issue 8

226) Power values of generalized derivations in ring and algebra

Md Hamidur Rahaman

Department of Mathematics, A.P.C Roy Govt. College, Siliguri-734010, India.

Farhat Ali

Department of Mathematics, Aligarh Muslim University, Aligarh-202002, India.

[Download PDF](#)

 2317-2325

227) Analysis of the Effect of Attitude, Subjective Norms, Entrepreneurial Education, and Self Efficacy on Entrepreneurial Intention on Students in Indonesia

Yuli Eni, Lim Sanny

Management Department, BINUS Business School Undergraduate Program, Bina Nusantara University, Jakarta11480, Indonesia.

Glory Aguzman, Agung Hari Sasongko

BINUS Entrepreneurship Center, Management Department, BINUS Business School, Undergraduate Program, Bina Nusantara University, Jakarta11480, Indonesia.

[Download PDF](#)

 2326-2339

228) Cost-Benefit Analysis Of Kabini River At Nanjangud, Karnataka, India

Dr. Sudevi Basu, Assistant Professor

Department of Biotechnology, Sir M Visvesvaraya Institute of Technology, Bengaluru-562157, Karnataka, India.

Prof. K S Lokesh, Ex -Professor and Registrar

JSS Science and Technology University, JSS Technical Institutions Campus, Mysuru-570006, Karnataka, India.

[Download PDF](#)

2340-2347

229) Can Sexual Harassment Case Reduce Brand Reputation of a Ride-Sharing Company?

Christian Haposan Pangaribuan, Joice Tentry Wijaya

Sampoerna University, Jakarta, Indonesia.

[Download PDF](#)

2348-2360

230) Visual Assistant for Visually Impaired using Transferred Learning Approach

Ashish Salunkhe, Abhishek Babhulkar, Dharmaraj Sharma, Shubham Phalke, Shweta Koparde

Department of Computer Engineering, Pimpri Chinchwad College of Engineering and Research, Pune, India.

[Download PDF](#)

2361-2364

231) Association Exploration of Elements Influencing Stress Management Among Workforces in Service Sector

Prof. Yuvaraj Nath, Dr. Pradeep. M.P

Faculty Member, JSS Centre for Management Studies, JSS Science and Technology University, Mysuru, India.

[Download PDF](#)

2365-2374

232) A Review on Detection of Heavy Metal in Biological Sample

Sumit Kumar, Divya Bajpai Tripathy

Division of Forensic Science, SBAS, Galgotias University, Greater Noida, Uttar Pradesh, India.

Manoj Kumar Verma

Division of Chemistry, Forensic Science Laboratory, Lucknow, Uttar Pradesh, India.

[Download PDF](#)

2375-2382

233) Design Security Structure to secure payment gateways using Hybrid Cryptography

Mr. Anup Bhange, Dr. Harsh Mathur

Dept. Of CSE, MPU Bhopal, India.

[Download PDF](#)

2383-2389

234) Impact Of Covid-19 On Indian Manufacturing Sector

Dr.Monika R Seth, Assistant Professor

Department of Humanities, Shri Ramdeobaba College of Engineering and Management, Nagpur, India.

Manvi Jaiswal, Aman Agrawal, Aman Gupta, Dhruvsingh Bist, Gaurav Satija, Piyush Waychal

Department of Information Technology, Shri Ramdeobaba College of Engineering and Management, Nagpur, India.

[Download PDF](#)

2390-2395

235) Impact of COVID 19 pandemic on Middle Class Society in India

Dr. Monika Seth, Assistant Professor

Department of Humanities, Shri Ramdeobaba College of Engineering and Management, Nagpur-440013, India.

Bipasha Das, Halry Bhalodia, Akansha Banode, Grishma Soni, Mansi Agrawal

Department of Information Technology, Shri Ramdeobaba College of Engineering and Management, Nagpur-440013, India.

[Download PDF](#)

2396-2409

236) Cost Benefit Analysis of Onion Production: A case study of Ahmednagar District, Maharashtra

Dr. Ashok Ak. Deshpande, Professor & HOD, **Dr. Manoj Bhande**, Assistant Professor

Dr. Asnok Aha Devikar, Professor & HOF, **Dr. Varun Binda**, Assistant Professor
Department of Geography, National Defence Academy, Pune, India.

[Download PDF](#)

2410-2417

237) Mathematical Modeling of Biogas generation potential from Full Scale Bioreactor.

Shyamsing Thakur

Kavayitri Bahinabai Chaudhari North Maharashtra University, Jalgaon-425001,
Maharashtra, India.

Dr. Rahul Barjibhe

Department of Mechanical Engineering, Shri Sant Gadge Baba College of Engineering &
Technology, Bhusawal-425201, Maharashtra, India.

[Download PDF](#)

2418-2426

238) Electronic structure, Spectroscopic, and natural bond analysis of an Antibacterial drug: Nitrofurantoin

Manju Verma, Joy Sarkar, Manoj Kumar Verma

Department of Chemistry, University of Lucknow, Lucknow-226007, Uttar Pradesh, India.

[Download PDF](#)

2427-2437

239) Purification of Methane by Using Chemical Scrubbing

Deepak Patil

Kavayitri Bahinabai Chaudhari North Maharashtra University, Jalgaon-425001,
Maharashtra, India.

Dr. Rahul Barjibhe

Department of Mechanical Engineering, Shri Sant Gadge Baba College of Engineering &
Technology, Bhusawal-425201, Maharashtra, India.

[Download PDF](#)

2438-2442

240) An Integrated Model Of Pv Distributed System Using UPQC

P.Rajesh, R.Sundar, Assistant professor, **T.Premkumar**, Assistant professor,

Dr.S.Saravanan, Professor

Department of EEE, Muthayammal Engineering College, Rasipuram, Tamilnadu, India.

[Download PDF](#)

2443-2450

241) Consumer Preference towards Dinning Needs and Crockery Products - A Study at Big Bazar

Mr. Mahadevaswamy R M, Guest Faculty

Department of Business Administration, Govt. First Grade College, Siddartha Nagara, Mysore, Karnataka, India.

Mr. Ranjansathya Das S, Guest Faculty

Department of Commerce, Govt. First Grade College for Women, Maddur, Mandya, Karnataka, India.

Dr.Aluregowda, Associate Professor

Department of Management Studies and Research Centre, PES College of Engineering, Mandya, Karnataka, India.

[Download PDF](#)

2451-2455

242) Using the Bayesian model To predict tourism revenue in Iraq except for the Kurdistan Region

Auday Sabeeh Lazim Al Kabi

Auday sabeeh lazim al kabi Researches and Islamic Studies Center (MABDAA) , Aliraqia University, Iraq.

[Download PDF](#)

2456-2468

243) InfoCrypt: Real World Implementation of Machine Learning on Encrypted Data

Durga Bhavani A, Assistant Professor

Department of Computer Science & Engineering, BMS Institute of Technology & Management, Bengaluru, Karnataka, India.

Piyush Agarwal, Shalette Natasha D'Souza, Sharanya Warriar, Sourav Ray Chaudhuri

Department of Computer Science & Engineering, BMS Institute of Technology & Management, Bengaluru, Karnataka, India.

[Download PDF](#)

2469-2474

244) Current Rational Approaches And Modalities For Novel Covid 19

Rahul Jain, Vishal Gulecha, Prathamesh Pawar

K.R.T. Arts, B.H. Commerce & A.M. Science (K.T.H.M.) College Nasik, Maharashtra, India.

Amar Zalte

School of Pharmaceutical Sciences, Sandip University, Nasik, Maharashtra, India.

[Download PDF](#)

2475-2492

245) Product selling tactics using privacy-preserving association rule mining with high confidence

S.S. Darbastwar

DKTE Society's Textile and Engineering Institute, Ichalkaranji, India.

[Download PDF](#)

2493-2498

246) Quality Function Deployment (QFD) for Development and Innovative Business Practices: a systematic review

Agawane Rajendra Jagannath, Assistant Professor, **Dr. Bhola Sarang Shankar**, Associate Professor

Karmaveer Bhaurao Patil Institute of Management Studies and Research, Satara, Maharashtra, India.

[Download PDF](#)

2499-2517

247) Covid-19 Rises The Need Of Intensive Healthcare Infrastructure In India

Dr. Monica Seth, Assistant Professor

Department of Humanities, Shri Ramdeobaba College of Engineering and Management, Nagpur-440013, India.

Alisha kumbhare, Nitish Harde, Sanjeet Jaiswal, Someshwar Girhepunje

Department of Civil Engineering, Shri Ramdeobaba College of Engineering and Management, Nagpur-440013, India.

[Download PDF](#)

2518-2521

248) Economic Impact on Construction Sector Due to COVID-19

Dr Monica R Seth, Assistant Professor

Department of Humanities, Shri Ramdeobaba College of Engineering and Management, Nagpur-440006, Maharashtra, India.

Kunal Gupta, Akshat Waghmare, Arudati Manhas, Sumit Mishra, Bhramar Raut

Department of Civil Engineering, Shri Ramdeobaba College of Engineering and Management, Nagpur-440006, Maharashtra, India.

[Download PDF](#)

2522-2528

249) Evaluation of Anti-Inflammatory Activity of Isolated Compounds from Stems of Mimosa hamata (Willd.)

Khan N. I

Department of Pharmacology, Sahyadri College of Pharmacy, Methwade, Maharashtra-413307, India.

Hatapakki B.C

Department of Pharmacognosy, P.S.P.S.'s Indira Institute of Pharmacy, Sadavali (Devruk), Maharashtra, India.

[Download PDF](#)

2529-2541

250) Chances of India to Boost up their Economy after Covid-19

Dr. Monika R. Seth, Assistant Professor

Department of Humanities, RCOEM, Nagpur, India.

Manthan Parate, Tulsi Chaudhari, Sneha Shukla, Samarth Shukla, Aman Singh

Department of Civil Engineering, RCOEM, Nagpur, India.

[Download PDF](#)

2542-2550

251) Impact Of Covid –19 On Road Construction In India

Dr. Monica R Seth, Assistant Professor

Department of Humanities, Shri Ramdeobaba College of Engineering and Management, Nagpur-440013, India.

Lakshya Maheshwari, Avik Lodha, Vaishnavi Shinde, Jayesh Khatod, Rushabh Bothra

Department of Civil Engineering, Shri Ramdeobaba College of Engineering and Management, Nagpur-440013, India.

[Download PDF](#)

2551-2556

252) Enhancing the efficiency of leaf-based disease detection systems using deep neural nets

Ravindra Namdeorao Jogekar, Research Scholar, **Dr. Nandita Tiwari**, Associate Professor

Department of Computer Science and Engineering, RKDF Institute of Science and Technology, Sarvepalli RadhaKrishnan University, Bhopal, MP, India.

[Download PDF](#)

2557-2565

253) Environmental Ramification of the Covid-19 Pandemic

Dr. Monica R Seth, Assistant Professor

Department of Humanities, Shree Ramdeobaba College of Engineering and Management, Nagpur-440013, India.

Pratik Gahane, Sanket Bhansali, Siddharth Paunikar, Ankit Mayal, Aniket Pusadkar

Department of Civil Engineering, Shree Ramdeobaba College of Engineering and Management, Nagpur 440013, India.

[Download PDF](#)

2566-2574

254) Task scheduling in diverse storage systems: a theoretical perspective of existing approaches with proposed mechanism for evaluation purpose

Shantanu A. Lohi, Research Scholar & Corresponding Author, **Dr. Nandita Tiwari**, Associate Professor

Department of Computer Science and Engineering, RKDF Institute of Science and Technology, Sarvepalli RadhaKrishnan University, Bhopal, MP, India.

[Download PDF](#)

2575-2581

255) Enhancing the capabilities of electoral roll management systems using

light-weighted distributed blockchain

Mr. Harish V. Gorewar, PhD Resarch Scholar, **Dr. Nandita Tiwari**, Associate Professor
Dept. of Computer Science and Engineering, RKDF Institute of Science and Technology,
Sarvepalli RadhaKrishnan University, Bhopal, India.

[Download PDF](#)

2582-2594

256) Child Marriage In Assam: A Case Study Of Goalpara District

Dr. Begum Sadeka Yasin, Academic Head, Faculty of Arts
Brookfield Educational and Research Institute, Goalpara, Assam-783121, India.

[Download PDF](#)

2595-2604

257) A Review On Buccal Film

Twinkal Vaishnav, **Janvi Kalsara**, **Kruna Prajapati**, **Dr.Mittal Maheshwari**, Professor
and HOD of Pharmaceutics, **Dr.Pragmesh Patani**, Principal
A-One Pharmacy College, Enasan , Ahmedabad-382355, Gujarat , India.

[Download PDF](#)

2605-2621

258) Examining Spectator Motivations in Mixed Martial Arts: Why Do They Like Watching People Beating Up One Another?

Christian Haposan Pangaribuan, **Wiratama Ajie Wirananda**
Sampoerna University, Jakarta, Indonesia.

[Download PDF](#)

2622-2629

259) Impact Of Covid-19 On Everyday Work Life

Dr.Monika R Seth, Assistant Professor
Department of Humanities, Shri Ramdeobaba College of Engineering and Management,
Nagpur-440013, India.

Ankita Lohe, **Saksham Mohta**, **Yash Jaiswal**, **Pushkar Mulik**, **Anjali Jha**
Department of Civil Engineering, Shri Ramdeobaba College of Engineering and
Management, Nagpur-440013, India.

[Download PDF](#)

2630-2635

260) Parameter Analysis of Water-SiO₂ Nanofluid Turbulent Flow by Taguchi Method

Bhosale Chandrakant

Mechanical Department, G.E.S College of Engg. Nashik, India.

K. V. Chandratre

L.G.M.I.I.E.E. & Research, Nashik, India.

[Download PDF](#)

2636-2640

261) A Review On Material Used For The Development Of 3d Fingerprint By Using Mould And Cast Method

Jaya Gupta, Harsh sable, Divya Bajpai Tripathy, Associate Professor

Division of Forensic science, SBAS, Galgotias University, Greater Noida, U.P-201312, India.

[Download PDF](#)

2641-2654

262) Hepatocellular Carcinoma: The Silent Killer

Viraj Amin

Pursued Bachelor's of Pharmacy from A one Pharmacy College , Enasan, Ahmedabad, India.

Dr. Nishkruti Mehta, Associate Professor

Department of pharmacology, A-One Pharmacy College, Enasan, Ahmedabad, India.

[Download PDF](#)

2655-2660

263) Lack Of Fluid Capital In Construction Sector Due To Covid-19

Dr. Monica R Seth, Assistant Professor

Department of Humanities, Shri Ramdeobaba College of Engineering and Management, Nagpur-440013, India.

Parth Talreja, Rohan Divekar, Rajveer Gurbaxani, Lovesh Lulla, Neal Laddha

Department of Civil Engineering, Shri Ramdeobaba College of Engineering and Management, Nagpur-440013, India.

[Download PDF](#)

2661-2665

264) Person-Environment Fit and its influence on Predicting the Employee Turnover Intentions

Prof. Vijayalakshmi Urs K, Assistant Professor, **Dr. PSV Balaji Rao**, Professor & Head
Department of Business Administration, Vidyavardhaka College of Engineering, Mysuru,
Karnataka, India.

[Download PDF](#)

2666-2671

265) A Comparative Study Of Construction Techniques In This Pandemic

Dr. Monika R Seth, Assistant Professor
Department of Humanities, Shri Ramdeobaba College of Engineering and Management,
Nagpur-440013, India.

Kamesh Singh Thakur, Ronit Vishwakarma, Udaypal Viridi, Sarthak Etankar, Suyash Jais

Department of Civil Engineering, Shri Ramdeobaba College of Engineering and
Management, Nagpur-440013, India.

[Download PDF](#)

2672-2676

266) Enriching single image contrast through luminance by using multi exposure images.

U. L.Kokate, S.B.Bhagate

Department of Computer Science and Engineering, D.K.T.E. Society's Textile &
Engineering Institute, Ichalkaranji (An Autonomous Institute), India.

[Download PDF](#)

2677-2685

267) Improving The Accuracy of Plant Leaf Disease Detection Using Deep-net

Megha Ramchandra Lolure, Dr.Vaishali M. Deshmukh, Faculty

Department Of Computer Science & Engineering, PRMITR, Badnera, Maharashtra, India.

[Download PDF](#)

2686-2695

268) Soil Stabilization Using Geotextiles

Rajendra Patil, Associate Professor

In Civil Engineering, DKTE Society's Textile and Engineering Institute, Ichalkaranji, India.

Aishwarya Patil

VIIT, Pune, India.

[Download PDF](#)

2696-2702

269) Policy in reducing poverty in Bone Bolango Regency, Gorontalo Province

Hamim Pou, Soemarno

Faculty of Agricultural Sciences, Brawijaya University in Malang, Indonesia.

Henny Pramodyo

Faculty of Mathematics and Natural Sciences, Brawijaya University in Malang, Indonesia.

Irwan Bempah

Faculty of Agricultural Sciences, Gorontalo State University in Gorontalo, Indonesia.

[Download PDF](#)

2703-2718

270) Socio-economic pattern of the sugar palm (*Arenga pinnata*) agroforestry based on sustainable

Sumitro Monoarfa

Doctoral Student Faculty of Agriculture, Brawijaya University, Malang-65145, Indonesia.

Soemarno, Abdul Wahib Muhaimin

Faculty of Agriculture, Brawijaya University Malang-65145, Indonesia.

Mohamad Iqbal Bahuwa

Faculty of Agriculture, Gorontalo State University, 96128 Indonesia.

[Download PDF](#)

2719-2731

271) The role of boarders in dealing with social deviations (case study in the Indonesian female's hostel at Gorontalo State University)

Faid Th. Musa

Rario In. Musa

Department of Sociology, Faculty of Social Sciences, Gorontalo State University, Indonesia.

[Download PDF](#)

2732-2736

272) Analysis Of The Size And Body Weight Characteristic Of Ongole Cattle That Are Kept With Intensive And Semi-Intensive System

Nibras K.Laya, Djafar Ibrahim, Safriyanto Dako, Fahria Datau

Department of Animal Science, Faculty of Agriculture, Gorontalo State University, Indonesia.

[Download PDF](#)

2737-2746

273) Synthesis And Characterization Of Nanosilica-Chitosan Composites From Sugarcane Bagasse As Si Slow-Release System

Musrowati Lasindrang

Faculty of Agriculture, Gorontalo State University, Indonesia.

Indriana Kartini

Faculty of Mathematics and Natural Sciences, Department of Chemistry, Gadjah Mada University, Indonesia.

[Download PDF](#)

2747-2755

274) Impact Of Covid-19 On Cyber Security

Dr. Monika R Seth, Assistant Professor

Department of Humanities, Shri Ramdeobaba College of Engineering and Management, Nagpur, Maharashtra, India.

Tanay R Dandekar, Dhanada S Kapre, Madhura V Landge, Pranati R Pandey, Simran S Singh

Department of Information Technology, Shri Ramdeobaba College of Engineering and Management, Nagpur, Maharashtra, India.

[Download PDF](#)

2756-2761

275) Construction Industry Post SARS-CoViD-19

Dr. Monica Seth, Assistant Professor

Department of Humanities, Shri Ramdeobaba College of Engineering and Management,
Nagpur-440013, India.

Raj Narayan Choudhury, Amogh Deshpande, Sandeep Nair, Advait Chobe, Madhur Singh Chauhan

Department of Civil Engineering, Shri Ramdeobaba College of Engineering and
Management, Nagpur-440013, India.

[Download PDF](#)

2762-2766

276) Evaluation of In-vivo Anti-inflammatory activity of hydroalcoholic extract of Grewia hirsuta leaves collected from Western Ghats forest.

Dattatraya Kature, Gaurav Gupta

School of Pharmacy, Suresh Gyan Vihar University, Jaipur, Rajasthan, India.

[Download PDF](#)

2767-2776

277) Experimental study on eco-friendly light weight bricks by partial replacement of clay with saw dust

Syed Faraz Siddique, Assistant Professor

Department of Civil Engineering, Acharya Institute of Technology, Bangalore, India.

Chandanashree P V

Department of CTM Engineering, Acharya Institute of Technology, Karnataka, India.

Varun gowda K N, Preetham M L, Charan B G

Department of Civil Engineering, Acharya Institute of Technology, Karnataka, India.

[Download PDF](#)

2777-2784

278) Effect on Building Materials due to Covid-19 Lockdown

Dr. Monica R Seth, Assistant Professor

Department of Humanities, Shri Ramdeobaba College of Engineering and Management,
Nagpur-440013, India.

Jaspreet Singh Bhatiya, Pranay Bhojar, Saurabh Baheti, Divyam Gupta, Ibrahim Hussain

Department of Civil Engineering, Shri Ramdeobaba College of Engineering and
Management, Nagpur-440013, India.

[Download PDF](#)

2785-2790

279) A study on Determinants of Dividend Policy and its Impact on Financial Performances: A Panel Data Analysis for Indian Listed Firms

Dr. N Suresh, Professor, **Pooja M**

Faculty of Management and Commerce, Ramaiah University of Applied Sciences, India.

[Download PDF](#)

2791-2799

280) Neural Network Based Probe Fed Stack Patch Antenna

D. Dash

Galgotia College of Engineering and Technology, Greater Noida.

B. Mohapatra

Galgotias University, Greater Noida.

[Download PDF](#)

2800-2806

281) Forecasting Covid-19 of India: An era

Umme Habibah Rahman, Phd research scholar

Department of Statistics, Assam University, Silchar, Assam, India.

[Download PDF](#)

2807-2818

282) An Optimal Excitation Control Of Decentralized Non-Linear Voltage Regulator For Multi – Machine Power System Using Lmi

R.Ramkumr, PG Scholar, **S.Saranraj**, Assistant Professor, **Dr.S.Saravanan**, Professor,

E.Viswanathan, Assistant Professor, **G.Nandakumar**, Assistant Professor

Department of EEE, Muthayammal Engineering College, Tamilnadu, India.

[Download PDF](#)

2819-2826

283) Impact of Covid-19 on Real Estate sector

Dr.Monika R Seth, Assistant Professor

Department of Humanities, Shri Ramdeobaba College of Engineering and Management, Nagpur-440013, India.

Sanskar Khandelwal, Hardik Singhavi, Nikhil Rathi, Shubham Dhanuka, Harshal Taori

Department of Information Technology, Shri Ramdeobaba College of Engineering and Management, Nagpur-440013, India.

[Download PDF](#)

2827-2830

284) Labor Management On Construction Sites Due To Covid-19

Dr.Monika R Seth, Assistant Professor

Department of Humanities, Shri Ramdeobaba College of Engineering and Management, Nagpur-440013, India.

Amisha Govind, Jidnyasa Gaikwad, Sakshi Dharmik, Gaurav Rai, Sachin Sahu

Department of Civil Engineering, Shri Ramdeobaba College of Engineering and Management, Nagpur-440013, India.

[Download PDF](#)

2831-2837

285) Implementation Of Prototype Model For Charging Electric Vehicles Using Solar Energy

T.R.Vignesh, M.Swathisriranjani, Assistant Professor, **Dr.S.Saravanan**, Professor, **G.Nagarajan**, Assistant Professor, **R.Vinoth**, Assistant Professor

Department of EEE, Muthayammal Engineering College, Rasipuram, Tamilnadu, India.

[Download PDF](#)

2838-2846

286) Application of Rational Governance Standards in Saudi Hospitals: Field Study in the Saudi Health Sector by applying it on Public and Private Hospitals.

Dr. Mohammad Sultan Majed Mahasneh, Assistant professor

in Health Services Administration, Dept. of Health Services and Hospital Management, University of Jeddah, Colleague of Business, Saudi Arabia.

[Download PDF](#)

2847-2861

287) Impact Of Covid-19 On Construction Market

*Correspondent Author

ABSTRACT

Background: The purpose of this study was to determine differences in body size and bodyweight of Ongole Peranakan cattle (PO) that are kept with a semi-intensive and intensive system.

Material and Methods: The study was conducted in May-November 2019 in Kecamatan Tibawa, Gorontalo Regency, Gorontalo Province. A total of 250 Ongole cows crossbreed were used in this study. Body size correlation analysis and T-test to see differences. The variables observed were body length, shoulder height, and chest circumference.

Results: The results showed that PO cattle that were intensively reared had an average body weight of 719.4 kg/head, body length of 157.9 cm/head, shoulder height 152.6 cm/head, and chest circumference 220.4 cm/head while sem-intensive maintenance has an average body weight of 498.7 kg, body length 156.1 cm, shoulder height 148.9 cm, and chest circumference 178.4 cm.

Conclusions: Maintenance of PO cattle with intensive systems has a higher body weight than semi-intensive and is suitable as a mother cow for use as a livestock producing livestock.

Keywords: PO Cow, Body Size, Intensive and Semi-Intensive Systems

INTRODUCTION

The cattle of Peranakan Ongole (PO) are the result of breeding through a cross-breeding system by raising ranks between Javanese cows and Sumba Ongole (SO). Since its formation into a nation of good quality livestock, until now there have not been many efforts directed at increasing its biological and genetic potential. This livestock is one type of local cattle that are being developed in Indonesia. The advantages of PO cows arise in their simple life, they can be developed in the tropics, are easy to breed and have a low

temperament or are tolerant of humans (tame), with PPB of cow male 0.19 ± 0.12 *kg/head/day* and female 0.18 ± 0.10 *kg/head/day* (Laya NK. 2005),

The development of PO cattle at Famer-cattle illustrates differences in growth.

Feeding factors because the provision is not by the needs of livestock, maintenance and mating systems that are not well programmed can reduce genetic quality, where the maintenance of traditional, semi-intensive and intensive systems can affect the performance of livestock, in addition to breeding that occurs in a long period in the livestock population, the behaviour of farmer-cattle who sell livestock for family economic needs, where livestock are marketed are animals that have high economic value, so that the livestock that becomes the next offspring have poor genetic quality.

Efforts to maintain the existence of PO cows as native germplasm need to be done to get quality seeds. Minister of Agriculture Regulation No.54 / Permentan / OT.140 / 10/2006 states that to select livestock as a parent, performance tests are carried out based on quantitative and qualitative characteristics including measurement, weighing and evaluation. The local government agencies, especially the UPTD within the Ministry of Agriculture, have a mandate to conserve PO cows by breeding programs through the Open Nucleus Breeding Plan (ONBP) system by capturing local cows on smallholder farms as a source of seeds. Concrete steps to maintain the availability of PO cows as breeding cows require qualitative and quantitative information about certain characters as preliminary information, for further development. Qualitative traits can be identified through visual observations while quantitative traits are carried out by measurement techniques. The purpose of this study was to determine differences in the size

and bodyweight of PO cows that are kept in a semi-intensive and intensive system based on SNI standards, so they can be used as a source of seed.

RESEARCH METHODS

This research was conducted from May to November 2019 in the District of Tibawa, Gorontalo Regency, Gorontalo Province, as many as 335 PO cows, consisting of 215 PO cows that were kept in an intensive system, and 125 PO cows kept by the semi-intensive system. Focus observations were made on quantitative traits: body length, height, chest circumference, and weight according to the formula Nibras, et al, (2003) as follows:

- a. Body height is measured using a measuring stick, measuring at the highest point of the cow's body to the ground (cm).
- b. Body length was measured directly from the elbow to the filter bone lump (cm).
- c. Chest circle; measured using a measuring tape, measured in a circle on the chest, measuring tape is behind the front leg (cm)

fig1. Measurement methods for body cattle

Comparison of body weight analysis using the formula suggested by Sugiyono (2013) as follows:

$$t = \frac{\bar{X}_1 - \bar{X}_2}{\sqrt{\frac{S_1^2}{n_1} + \frac{S_2^2}{n_2}}}$$

Information:

t = t-value

X1 = average value of cattle (system-intensive)

X2 = average value of cattle (semi-intensive system)

S1² = variant (system-intensive)

S2² = variant (semi-intensive system)

n1 = Total Value of the group (system-intensive)

n2 = Total value of groups of two subjects (semi-intensive system)

r = correlation between two samples

Covariance value calculated based on the recommended formula

$$F = \frac{S1^2}{S2^2}$$

Where: F = F-count value

S1² = Greatest Variant Value

S2² = Smallest variant value

RESULTS AND DISCUSSION**Regional and farm-livestock characteristics**

Tibawa Subdistrict, Gorontalo Regency, has an area of 207.7 km², consisting of 16 villages, an altitude of 23.00 mASL, an average temperature of 27.9°C, average humidity of 78.6%. The number of beef cattle kept by the community and groups is 12484, (Source: Gorontalo Regency Fisheries, Fisheries and Animal Husbandry Department (2019)., Gorontalo Regency Statistics Agency (2018). Percentage of PO cattle is 37.54%, with ± 10 years

experience of raising cattle, cattle ownership level is 3-7. Animal Husbandry beef cattle in the TIBAWA sub-district are integrated with dryland farming (yellow corn) and wetland (wet rice). The system of maintenance PO cattle is carried out intensively and semi-intensively. The intensive system, livestock are kept in cages all day and given quality feed. The cage model used is the colony enclosure, where livestock is placed in cages without being fastened. The size of the cage is $\pm 18 \times 7.2 \text{ m}^2$ for 20-30 head of cattle (managed by a group). Individual management, stall size $4 \times 2 \text{ m}^2$, several cows 3-4 heads.

The types of feed given are banana stems and leaves, long straw and rice concentrate (rice bran and coconut cake, cassava, bran, salt, and additional feed), this condition describes the feed given is different every day, the combination of feed given depends on the availability of feed on agricultural land, while the Semi-Intensive system, livestock are then released and tied outside the cage or on farmland, and at night put in a cage.

The size and bodyweight of Ongole Peranakan cows (PO)

The quality of PO cattle in Indonesia as a parent uses SNI 7356: 2008 standard (PERMENTAN no 54 2006), the assessment is carried out through measurements of the parent body parts (body length, height, weight, and chest circle). SNI information is used in this study, as basic data to determine the quality of PO cattle in Gorontalo. The average size and weight of PO cows in Tibawa Regency, Gorontalo Regency, Gorontalo Province, with intensive and semi-intensive maintenance systems are described according to table 1

Tabel 1. Comparison of Size and Bodyweight of PO cattle with Intensive dan Semi-Intensive System

No	variable	Maintenance	
		Intensive	Semi-Intensive

		Average	cov	Average	Cov
			(%)		(%)
		719.4 ±			
1	Body weight (kg)	151.11 ^a	21.0	498.7±100.85 ^b	20.21
		157.9 ±			
2	Body Length (cm)	27.68 ^a	5.04	156.1±13.75 ^b	4.34
		152.6 ± 7.96			
3	Body height (cm)	^a	5.01	148.9±6.78 ^b	5.37
		220.4 ± 7.65			
4	chest circle (cm)	^a	12.5	178.4±8.01 ^b	7.70

Based on Table 1, the size and bodyweight of Ongole crossbred cows that are kept semi-intensive are different from those in the intensive system ($P > 0.05$)

This difference is caused by cows that are kept with a semi-intensive system getting more food intake than cows that are intensively raised because these animals are employed on plantation land, whereas cattle that are kept with intensive systems are commercial animals, and are used in the Cow Race. The type of feed given is elephant grass, concentrate, bran, and supplementary feed.

The results of this study indicate that the weight of Ongole crossbred cows that are maintained with a semi-intensive and intensive system is higher (table 1) compared to the size and weight of PO cows originating from Lamongan (East Java), ages 1- 2 years is 360.22 kg, chest circumference: 175.37 cm, body length: 150.71 cm, and height: 144.77 cm (Hartati et al., 2010). According to Mansyur (2010), the weight of Ongole Peranakan cows that are

kept semi-intensive at the age of 2-3 years weights 302 kg, an average chest circumference of 165 cm, an average body of 131 cm, and height body 132 cm, while Laya N.K, (2005) estimated weight using Lambourne and Djagra formulas results in daily weight gain every day (PBBH) for male cattle at the age of 1-year 0.42 ± 0.03 kg/head/day, while females 0.42 ± 0.08 kg/head/day. Male PO cattle 2-years old is 0.39 ± 0.05 kg/ head/day, while female cattle 0.38 ± 0.07 kg/head/day. Adult bulls are 0.19 ± 0.12 kg/head/day, while females 0.18 ± 0.10 kg/head/day.

Correlation Analysis between body size and body weight

Correlation shows the value of the relationship between body weight variables with body measurements of Ongole cows crossbreed. Correlation coefficient values between the size and bodyweight of Ongole cows crossbreed which are kept in a semi-intensive and intensive system are presented in Table 2.

Table 2. the value of correlation between body size and body weight

No	Ukuran Tubuh	Nilai r	Signifikan	Keterangan
PO Cows (Intensive)				
1	chest circle (X ¹)	0.98	0.00	Signifikan
2	Body height (X ³)	0.82	0.00	Signifikan
3	Body Length (X ²)	0.77	0.00	Signifikan
Sapi PO Semi Intensif				
1	Body Length (X ²)	0.95	0.00	Signifikan
2	chest circle (X ¹)	0.83	0.00	Signifikan
3	Body height (X ³)	0.80	0.00	Signifikan

The results of this study indicate the correlation of body size with body weight of PO cows in both maintenance systems is very strong / high, this result is in line with Nisa (2016) report, states the correlation value for semi-intensive PO cows is ($r = 0.99$) chest circumference, ($r = 0.97$) body length, and ($r = 0.98$) shoulder height, while for intensive PO cows the correlation value ($r = 0.99$) chest circumference, ($r = 0.97$) body length, and ($r = 0.95$) shoulder height, while Laya N K, (2005) Relationship of body size and body weight of male and female PO cow of 1-year old following the regression equation $Y = -43.44 + 1.35X_1$ ($R^2 = 0.74$) and $Y = -80.18 + 0.52X_1 + 0.69X_2 + 5.57X_3 - 5.14X_4$ ($R^2 = 0.89$).

According to Sugiyono (2013) states that the correlation coefficient interval between 0.00 - 0.20 indicates a low correlation level, the correlation coefficient interval between 0.20 - 0.50 is the moderate correlation level, and the correlation coefficient interval 0.50 -1.00 indicates the level Correlation Correlation is the very strong or high category.

T-test Analisis of the size and bodyweight of Ongole Peranakan cattle (PO)

Comparison of the size and bodyweight of Ongole cattle (PO) crossbreed, which is kept semi-intensive and intensive. T-test results on the size and bodyweight of Ongole Peranakan cattle (PO), which are kept semi-intensive and intensive are presented in Table 3.

Table 3. *t-Test: Two-Sample Assuming Equal Variances*

No	Variable	Maintenance		Nilai P. Value	Kesimpulan
		Semi-Intensive (tail)	Intensive (tail)		
1	BW (kg)	125	125	6.2	Not Significant

					Not
2	LD (cm)	125	125	1.3	Significant
3	BL (cm)	125	125	0.5	Significant
4	HB (cm)	125	125	0.2	Significant

Where : BW = Bodyweight, LD = Lingkar Dada, BL = Body Length, BH = Body height.

Based on the T-test. The difference in body weight between Ongole crossbred cows that are kept semi-intensively and intensively is not significant or the same. This illustrates that there is no difference in body weight and chest circumference of different PO cows with breeding systems. The difference occurs in the length and height.

Conclusion

The estimated weight of Ongole crossbreed cattle, which are kept intensive, is 719.4 kg, while the intensive Sem-system is 498.7 kg. The weight and breast circumference of Ongole crossbreed cows that are kept semi-intensive are higher than those that are intensive but not significantly different, while the body length and a shoulder height of cows that are kept semi-intensive are higher than intensive and significantly different.
