Focus and Scope

Tujuan jurnal ini adalah untuk mempublikasikan artikel yang didedikasikan untuk semua aspek perkembangan terkini yang luar biasa di bidang manajemen pendidikan di semua pengaturan. Ruang lingkup jurnal ini meliputi perencanaan pendidikan, manajemen pendidikan, supervisi pendidikan, pengawasan pendidikan, manajemen sumber daya manusia, komunikasi organisasi, hubungan masyarakat, kepemimpinan, pendidikan, dan pengajaran dan pembelajaran; Pendidikan (pengajaran, pengembangan, pengajaran, proyek dan inovasi pendidikan, metodologi pembelajaran dan teknologi baru dalam pendidikan dan pembelajaran, penilaian). Ini pertama kali diterbitkan pada 2013.

Artikel yang diterbitkan dalam jurnal ini merupakan:

- (1) laporan evaluasi dan temuan penelitian;
- (2) masalah konseptual dan metodologis; dan / atau
- (3) implikasi dari tindakan di atas; dan / atau
- (4) bagian ulasan buku yang luas dan juga laporan sesekali tentang konsep manajemen pendidikan.

Section Policies

Artikel

- Open Submissions
- Indexed
- Peer Reviewed

Peer Review Process

Jurnal Bahana Manajemen Pendidikan menerapkan kebijakan proses peninjauan/review sebagai berikut :

3. **Struktur bagian.** Penulis disarankan untuk mempresentasikan artikelnya dalam struktur bagian: Pendahuluan - Metode - Hasil dan Pembahasan - Kesimpulan
4. **Referensi.** Harapkan minimal lebih dari 15 referensi terutama dengan minimal 85% dari makalah jurnal terkemuka, minimal terindeks SINTA (terakreditasi nasional).
5. **Naskah** harus diperiksa template, tingkat kesamaan (Plagiat) menggunakan alat seperti Turnitin , Plagiarism dan sejenis dengan tingkat persamaan minimal 20%, diperiksa oleh Dewan Redaksi Jurnal Bahana Manajemen Pendidikan

Silahkan hubungi IT Support untuk masalah ini via WhatsApp 082285742526

Etika Proses Publikasi Ilmiah

Jurnal Bahana Manajemen Pendidikan merupakan jurnal ilmiah (Scientific Journal) yang diterbitkan oleh Universitas Negeri Padang (UNP) Fakultas Ilmu Pendidikan (FIP) Jurusan Administrasi Pendidikan bekerja sama dengan Ikatan Sarjana Manajemen dan Administrasi Pendidikan (ISMAPI). Pernyataan kode etik ilmiah ini merupakan pernyataan kode etik semua pihak yang terlibat dalam proses publikasi jurnal ilmiah ini yaitu pengelola, editor, mitra bestari/reviewer, dan pengarang/penulis. Pada intinya Kode Etika Publikasi Ilmiah ini menjunjung tiga nilai etik dalam publikasi, yaitu

1. Kenetralan, yakni bebas dari pertentangan kepentingan dalam pengelolaan publikasi;
2. Keadilan, yakni memberikan hak kepengarangan kepada yang berhak sebagai pengarang/penulis; dan
3. Kejujuran, yakni bebas dari duplikasi, fabrikasi, falsifikasi, dan plagiarisme (DF2P) dalam publikasi.

Tugas dan Tanggung Jawab Chief Editor :

1. Menentukan nama jurnal, lingkup keilmuan, keberkalaan, dan akreditasi apabila diperlukan.
2. Menentukan keanggotaan editor.
3. Mendefinisikan hubungan antara penerbit, editor, mitra bestari, dan pihak lain.
4. Menghargai hal-hal yang bersifat rahasia, baik untuk peneliti yang berkontribusi, pengarang/penulis, editor, maupun mitra bestari.
5. Menerapkan norma dan ketentuan mengenai hak atas kekayaan intelektual, khususnya hak cipta.
6. Melakukan telaah kebijakan jurnal dan menyampaikannya kepada pengarang/penulis, editor, mitra bestari, dan pembaca.
7. Membuat panduan kode berperilaku bagi editor dan mitra bestari.
8. Mempublikasikan jurnal secara teratur.
9. Menjamin ketersediaan sumber dana untuk keberlanjutan penerbitan jurnal.
10. Membangun jaringan kerja sama dan pemasaran.
11. Melakukan peningkatan mutu jurnal.
12. Mempersiapkan perizinan dan aspek legalitas lainnya.

Tugas dan Tanggung Jawab Editor

1. Editor memberikan komentar terhadap tulisan penulis agar pembaca dapat mengerti apa yang ingin disampaikan penulis, melalui komentar yang dituliskan pada naskah dan atau fasilitas diskusi di website jurnal.
2. Editor memberikan komentar terhadap tulisan penulis sesuai dengan bahasa EYD (Ejaan Yang Disempurnakan) ataupun bahasa yang sesuai dengan standarisasi dari jurnal.
3. Editor mengupayakan peningkatan mutu publikasi secara berkelanjutan;
4. Editor mengedepankan kebebasan berpendapat secara objektif,
5. Editor menyampaikan koreksi, klarifikasi, penarikan, dan permintaan maaf apabila diperlukan,
6. Editor memastikan bahwa tulisan penulis tidak menyangkut SARA atau apapun yang dapat merugikan Penerbit serta mengkoordinasikan tulisan penulis kepada pimpinan redaksi penerbit apabila tulisan tersebut sedikit kontroversial.
7. Editor menerima, menelaah, dan menindaklanjuti keluhan dari seluruh pihak yang terlibat dalam penerbitan jurnal;
8. Editor mendukung inisiatif untuk mendidik peneliti tentang etika publikasi,
9. Editor tidak mempertahankan pendapat sendiri, pengarang atau pihak ketiga yang dapat mengakibatkan keputusan tidak objektif,
10. Editor mendorong pengarang/penulis, supaya dapat melakukan perbaikan karya tulis hingga layak terbit.
11. Editor melakukan layout naskah yang akan diterbitkan sehingga sesuai dengan *template* jurnal.
12. Editor membantu pemimpin redaksi/chief editor dalam melakukan finalisasi terhadap kumpulan naskah sebelum dicetak dan dipublikasikan, terutama dalam hal bahasa, format dan layout.

Tugas dan Tanggung Jawab Mitra Bestari

1. Memberikan umpan balik tertulis yang obyektif dan tanpa bias mengenai nilai keilmiah dan sumbangsih naskah terhadap pengembangan ilmu;
2. Menunjukkan apakah penulisan naskah cukup jelas, lengkap, serta relevan, dan apakah naskah sesuai dengan lingkup jurnal;
3. Tidak memberikan kritik atau komentar yang bersifat personal; dan
4. Menjaga kerahasiaan naskah, dengan cara tidak membicarakannya dengan pihak yang tidak terkait, atau membeberkan informasi yang terdapat di dalam naskah kepada pihak lain.

Tugas dan Tanggung Jawab Administrator Website

Administrator Website adalah orang yang bertanggung jawab atas pengelolaan website jurnal. Secara spesifik, lingkup tugas Administrator Website adalah sebagai berikut:

1. Menyiapkan situs web jurnal;
2. Mengkonfigurasi opsi-opsi sistem dan mengelola akun user;
3. Melakukan pendaftaran untuk editor, reviewer, dan penulis;

4. Mengelola fitur-fitur jurnal;
5. Melihat statistik laporan;

Riwayat Jurnal

Jurnal ini pertama kali diterbitkan secara online Volume 1 Nomor 1 pada tahun 2013. Terdaftar sebagai jurnal ber ISSN dan E-ISSN pada tahun 2018. Pada tahun 2020 secara resmi terakreditasi SINTA 5 berdasarkan Surat Keterangan : 85/M/KPT/2020. Terhitung sejak 15 April 2020, Jurnal Bahana Manajemen Pendidikan telah menerbitkan artikel ilmiah hingga Volume 9 Nomor 1 tahun 2020. Pada tanggal 16 Juni 2020 Jurnal Bahana Manajemen Pendidikan telah merilis *template* terbaru untuk submit artikel pada Volume 9 Nomor 2 tahun 2020. Jurnal Bahana Manajemen Pendidikan telah melakukan Call for Paper untuk menampung submit naskah/artikel hingga batas waktu yang telah dicantumkan di bagian Announcements pada website jurnal.

Pembiayaan

Jika manuskrip Anda diterima untuk dipublikasikan, Anda diminta membayar guna menutupi biaya publikasi, sejumlah Rp. 500.000,-

Namun, jika Anda tidak memiliki dana untuk membayar biaya tersebut, Anda memiliki kesempatan untuk dibebaskan setiap biaya, dengan menyertakan alasan yang diterima editor dan tentunya hal ini hanya diberikan terhadap naskah yang dinilai berkualitas oleh editor, karena Kami tidak ingin karena biaya mencegah publikasi karya yang layak.

*) *Biaya yang sudah ditransferkan tidak dapat dikembalikan atas alasan apapun*

Publication Ethics and Malpractice Statement

Our ethic statements are based on COPE's Best Practice (http://publicationethics.org/files/u2/Best_Practice.pdf) Guidelines for Journal Editors.

Publication decisions

The editor is responsible for deciding which of the articles submitted to the journal should be published. The editor may be guided by the policies of the journal's editorial board and constrained by such legal requirements as shall then be in force regarding libel, copyright infringement and plagiarism. The editor may confer with other editors or reviewers in making this decision.

Fair play

An editor at any time evaluates manuscripts for their intellectual content without regard to race, gender, sexual orientation, religious belief, ethnic origin, citizenship, or political philosophy of the authors.

Confidentiality

The editor and any editorial staff must not disclose any information about a submitted manuscript to anyone other than the corresponding author, reviewers, potential reviewers, other editorial advisers, and the publisher, as appropriate.

Disclosure and conflicts of interest

Unpublished materials disclosed in a submitted manuscript must not be used in an editor's own research without the express written consent of the author.

DUTIES OF REVIEWERS Contribution to Editorial Decisions

Peer review assists the editor in making editorial decisions and through the editorial communications with the author may also assist the author in improving the paper.

Promptness

Any selected referee who feels unqualified to review the research reported in a manuscript or knows that its prompt review will be impossible should notify the editor and excuse himself from the review process.

Confidentiality

Any manuscripts received for review must be treated as confidential documents. They must not be shown to or discussed with others except as authorized by the editor.

Standards of Objectivity

Reviews should be conducted objectively. Personal criticism of the author is inappropriate. Referees should express their views clearly with supporting arguments.

Acknowledgment of Sources

Reviewers should identify relevant published work that has not been cited by the authors. Any statement that an observation, derivation, or argument had been previously reported should be accompanied by the relevant citation. A reviewer should also call to the editor's attention any substantial similarity or overlap between the manuscript under consideration and any other published paper of which they have personal knowledge.

Disclosure and Conflict of Interest

Privileged information or ideas obtained through peer review must be kept confidential and not used for personal advantage. Reviewers should not consider manuscripts in which they have conflicts of interest resulting from competitive, collaborative, or other relationships or connections with any of the authors, companies, or institutions connected to the papers.

DUTIES OF AUTHORS Reporting standards

Authors of reports of original research should present an accurate account of the work performed as well as an objective discussion of its significance. Underlying data should be represented accurately in the paper. A paper should contain sufficient detail and references to permit others to replicate the work. Fraudulent or knowingly inaccurate statements constitute unethical behavior and are unacceptable.

Originality and Plagiarism

The authors should ensure that they have written entirely original works, and if the authors have used the work and/or words of others that this has been appropriately cited or quoted.

Multiple, Redundant or Concurrent Publication

An author should not, in general, publish manuscripts describing essentially the same research in more than one journal or primary publication. Submitting the same manuscript to more than one journal concurrently constitutes unethical publishing behavior and is unacceptable.

Acknowledgment of Sources

Proper acknowledgment of the work of others must always be given. Authors should cite publications that have been influential in determining the nature of the reported work.

Authorship of the Paper

Authorship should be limited to those who have made a significant contribution to the conception, design, execution, or interpretation of the reported study. All those who have made significant contributions should be listed as co-authors. Where there are others who have participated in certain substantive aspects of the research project, they should be acknowledged or listed as contributors.

The corresponding author should ensure that all appropriate co-authors and no inappropriate co-authors are included on the paper and that all co-authors have seen and approved the final version of the paper and have agreed to its submission for publication.

Disclosure and Conflicts of Interest

All authors should disclose in their manuscript any financial or other substantive conflicts of interest that might be construed to influence the results or interpretation of their manuscript. All sources of financial support for the project should be disclosed.

Fundamental errors in published works

When an author discovers a significant error or inaccuracy in his/her own published work, it is the author's obligation to promptly notify the journal editor or publisher and cooperate with the editor to retract or correct the paper.

Abstract

Objective of this study was to find out an obvious description for the evaluation of accreditation-based school management in improving the quality of education at SMP (Junior High School) Widyakrama in Telaga Biru Sub-district, Gorontalo District by studying four indicators which were: (1) curriculum management at SMP Widyakrama in Telaga Biru Sub-district, Gorontalo District, (2) human resource management at SMP Widyakrama in Telaga Biru Sub-district, Gorontalo District, (3) facility and infrastructure management at SMP Widyakrama in Telaga Biru Sub-district, Gorontalo District, and (4) education financing management at SMP Widyakrama in Telaga Biru Sub-district, Gorontalo District. This research applied an evaluation done quantitatively, qualitatively, and descriptively in a percentage. Research samples were school principal, teachers, employees, parents, committee, and students that were 28 in total. Techniques of data collection

used questionnaire, observation, interview, and documentation. Research findings were as followed: (1) the curriculum management at SMP Widyakrama in Telaga Biru Sub-district, Gorontalo District achieved average score of 97.7 or 66.31 in effective category, (2) the human resource management at SMP Widyakrama in Telaga Biru Sub-district, Gorontalo District achieved average score of 98,14 or 83.5 in effective category , (3) the facility and infrastructure management at SMP Widyakrama in Telaga Biru Sub-district, Gorontalo District achieved average score of 97.14 or 82.3 in effective category, and (4) the education financing management at SMP Widyakrama in Telaga Biru Sub-district, Gorontalo District achieved average score of 98 or 83,33 in effective category

1. Introduction

One of efforts taken by Indonesian government to improve education quality is through issuance of a Decree of the Minister of National Education Number 087/U/2002 concerning school accreditation. This decree explicitly urges all schools, whether public or private, to be accredited. Through school accreditation, it is expected that the quality of the school will also be better and have high learning achievement.

Schools are institutions that are assigned as center for the implementation of education and teaching in producing educated generations. In this regard, the school becomes subject of community discussion particularly related to its role, existence and benefits. The previous concerns lead to the need for the implementation of education to prepare generation to take part in country's development and progress. Consequently, it leads to the low quality of education because of teacher weaknesses, so that it should not be entirely teacher's workload and it is likely due to improper prevailing management system (Nasional, 63 C.E.). The education process is carried out formally at schools through teaching and learning process which is the core of entire education process and the teacher holds the main role. Future expectation is establishment of good synergies in a school environment so that effective performance is maintained in achieving goals and efficient in its use. Implementation of school management led by principal can be illustrated by results of student learning evaluation at the end of each year. Thus assessment of school performance through school accreditation will reflect the result of accreditation. The legal basis for implementing accreditation includes: Law No. 20 of 2003 (Indonesia & Bambang, 2003) in Article 60, Government Regulation No. 19 of 2005 in Articles 86 & 87 and Minister of National Education Decree No. 87/U/2002. Therefore school accreditation is one way of quality assurance of education and learning evaluation carried out by the government through National Examination is an evaluation of educational performance.

SMP (Junior High School) Widya Krama in Gorontalo District is an excellent school with accreditation A. The school has met the predetermined standard criteria. As proofs, interest of the community is high and it is evidenced by number of students who register at the school, human resource or teacher is highly adequate as their minimum education qualification is bachelor's degree and even master's degree and certified ones, and strongly supportive facility and infrastructure. Accreditation is the determination of quality standard and assessment of an educational institution. It can also be interpreted as a government effort to standardize and guarantee quality of alumni so that the quality of graduate is not too varied and meeting employment needs. In addition, the accreditation is a crucial asset for determining position of an institution in a management competition level and is a benchmark to ensure that the graduate is worthy (Worthen & Sanders, 1973).

The current several phenomena related to the implementation of accreditation encounter several problems, including: (1) result of accreditation has not shown the objective condition of school, (2) result of accreditation has not shown accountability indicator, (3) result of school accreditation has not been used as a tool for guidance, development and improving the quality of education, (4) ranking of accreditation result has not been able to describe the feasibility of school, (5) result of accreditation has not been able to provide recommendation regarding education quality assurance. The quality of school education does require a special supervision that can give value to a school education institution such as: management, implementation process, and facility and infrastructure which are parameters in meeting standard to improve the quality of education at school. Problem that often occurs in the assessment of accreditation at school/ *madrasah* (Islamic school) is that the implementation of accreditation is occasionally not in accordance with principles of accreditation, namely objective, fair, transparent, comprehensive and accountable. So that the principles are not implemented properly. In addition, in filling out the accreditation instrument, there are still a lot of data that do not match the existing fact and also there is still fictitious data regarding the fulfillment of the eight national education standards, which are made up suddenly by the school/ *madrasah*. One of the educational problems faced is a low quality of education at every level and unit of education, particularly primary and secondary education (Stufflebeam, 1968). Various efforts have been made to improve the quality of national education, including through various training and competency enhancement, teacher qualification, curriculum improvement, procurement of science laboratory, language, computer, book and learning tool, improvement of educational facility and infrastructure, and improvement of school management quality. Some schools, especially those in the city, show a quite encouraging improvement in the quality of education, although some are still apprehensive.

Based on the earlier background, problem statements in this research are as follows: 1. how is the curriculum management at SMP Negeri Widya Krama in Telaga Biru Sub-district, Gorontalo District? 2. How

is the human resources management at SMP Negeri Widya Krama in Telaga Biru Sub-district, Gorontalo District? 3. How is facility and infrastructure management at SMP Negeri Widya Krama in Telaga Biru Sub-district, Gorontalo District? 4. How is the Education Financing management at SMP Negeri Widya Krama in Telaga Biru Sub-district, Gorontalo District?

2. Research Methodology

The research method was evaluation which employed goal-oriented and decision-oriented models. (Arikunto & Jabar, 2004) The approach used in this research was a quantitative approach using percentage analysis and was a descriptive type which aimed to determine the evaluation of accreditation-based school management in improving the quality of education at SMP Widyakrama, Telaga Biru Sub-district, Gorontalo District, carried out in the following stages: (1) problem study and data collection, (2) instrumental analysis, (3) interview, and (4) study documentation. The problem study and data collection were carried out using interview and questionnaire techniques. Sources of information were school principal, teacher and school administration staff, school committee, parent and student. Goal Oriented Evaluation Model was the model that appeared first and its object of observation was goal of program that has been set before start of the program. This evaluation was carried out continuously to evaluate how far these objectives have been achieved in the program implementation process. 2. Goal Free Oriented Evaluation Model and decision-oriented evaluation model. In general, the evaluation research method included four components, namely: (1) a description of determining respondents or data source; (2) data collection method; (3) determination of data collection tool or instrument; and (4) a description of the data analysis. However, the researchers needed to reaffirm the evaluation model that was used to carry out the program evaluation in certain designs.

3. Finding and Discussion

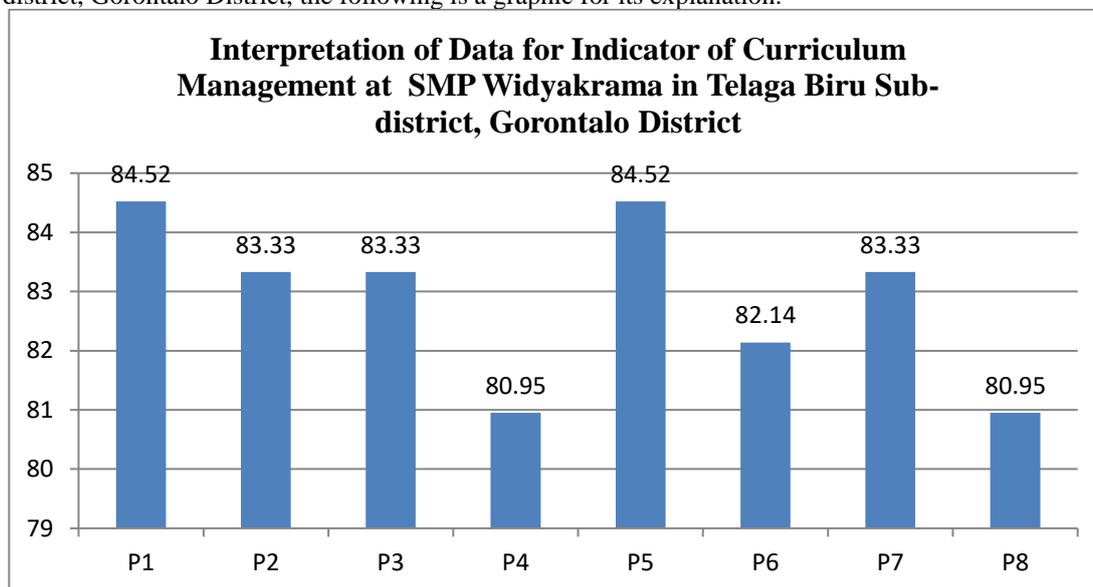

A. Curriculum Management

Table:1.1 Interpretation of Data for Indicator of Curriculum Management at SMP Widyakrama in Telaga Biru Sub-district, Gorontalo District

| Sub-indicator | Respondent Score | Percentage (%) | Assessment Criteria |
|--|------------------|----------------|---------------------|
| School creates curriculum based on vision, mission, purpose, organization, curricular content, management of teacher and student workload in creating syllabus and Lesson Plan. | 99 | 84.52 | Strongly Effective |
| School develops syllabus and Lesson Plan completely and systematically referring to the taught subject | 98 | 83.33 | Effective |
| School develops curriculum based on operating procedure of 2013 curriculum development which comprises stages of: analysis, creation, determination, and legalization | 98 | 83.33 | Effective |
| School principal and teacher develop curriculum based on guideline of 2013 Curriculum development by involving several parties include supervisor, resource person, school committee, and educational institution organizer | 96 | 80.95 | Effective |
| School implements curriculum based on prevailing regulation, follows curriculum structure, and performs structured assignment and independent activity, teacher workload based on self-development provision. | 99 | 84.52 | Strongly Effective |
| Teacher implements learning by applying following steps: preparing student physically and psychologically, motivating student, explaining learning purpose, and delivering topic coverage. | 97 | 82,14 | Effective |
| School develops syllabus and Lesson Plan which contain components of subject identity, school identity, core competence, basic competence, main topic, learning activity, and assessment of time allocation and learning source. | 99 | 84.52 | Strongly Effective |
| School applies assessment approach employing authentic assessment in the learning process. | 97 | 82.14 | Effective |
| School utilizes result of authentic assessment to plan remedial, enrichment, counseling services, and learning process improvement programs. | 98 | 83.33 | Effective |

| | | | |
|--|-------------|--------------|------------------|
| School supervises learning process objectively and transparently to improve the quality sustainably. | 96 | 80.95 | Effective |
| TOTAL | 977 | 663 | |
| Average | 97,7 | 66.31 | Effective |

Based on score in all indicators of Curriculum Management at SMP Widyakrama in Telaga Biru Sub-district, Gorontalo District, the following is a graphic for its explanation.

The score for all curriculum management indicators at SMP Widyakrama, Telaga Biru Sub-district, Gorontalo District, based on the planning indicators are: creating curriculum according to the vision, mission, and objective in which the overall component score is 99 or 84.52% in strongly effective category, developing syllabus and lesson plan is 98 or 83.33% in effective category, creating curriculum according to the procedure is 98 or 83.33% in effective category. Implementation indicators were: creating a curriculum based on the 2013 Curriculum implementation guidelines was 96 or 80.95% in effective category, creating a curriculum based on curriculum structure is 99 or 84.52% in strongly effective category, based on curriculum stages was 97 or 82.14%, development of syllabus contained components curriculum was 99 or 84.52% in strongly effective category. The assessment indicators are: learning process uses authentic assessment is 97 or 82.14% in effective category, remedial program is 98 or 83.33% in effective category, objective and transparent are 96 or 80.00% in effective category.

Thus the indicator of curriculum management at SMP Widyakrama, Telaga Biru Sub-district, Gorontalo District, obtained an average score of 97.7 or 66.31 in effective category.

The result of previous analysis is supported through interview with the following informants:

1. How is Curriculum Management Process at SMP Widyakrama, Telaga Biru Sub-district, Gorontalo District?

Below is an explanation conveyed by the school principal or informant during interview:

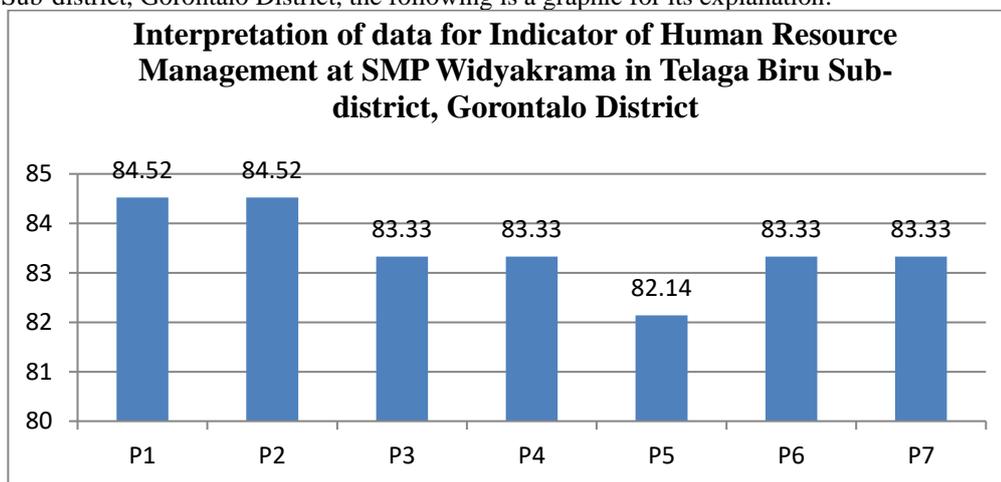

The curriculum management in our schools is based on curriculum compiler components, such as based on the curriculum preparation mechanism, curriculum implementation principle, learning load, and validation by the authorities. Lesson Plan process standard is a face-to-face learning activity plan for one or more meetings. The Lesson Plan is developed from a syllabus to direct student learning activities in an effort to achieve Basic Competence (BC). Each teacher is obliged to compile a complete and systematic lesson plan based on the following principles: (1) considering individual differences, (2) centering on students, (3) developing a culture of reading and writing, (4) emphasizing applicative skills to generate students who are competent and in accordance with potential development of students, (5) providing feedback and follow-up, (6) having relationship and integration between BC, learning material, learning activities, Competency Achievement Indicators (CAI), assessment, and learning resources as a whole, and general subject learning must support achievement (W.HP/5/7/2020) (BAN-SM, 2020)

B. Human Resource Management

Table:1.2 Interpretation of data for Indicator of Human Resource Management at SMP Widyakrama in Telaga Biru Sub-district, Gorontalo District

| Sub-indicator | Respondent Score | Percentage (%) | Assessment Criteria |
|--|------------------|----------------|---------------------|
| Teacher's minimum academic qualification is bachelor's degree in accredited study program. | 99 | 84.52 | Strongly Effective |
| Teacher who teaches at school is the certified educator | 99 | 84.52 | Strongly Effective |
| Teacher teaches at school based on educational background or feasibility and equivalence test | 98 | 83.33 | Effective |
| Teacher has pedagogic competences that cover students' characteristics integration, learning which is in accordance with characteristics, ability to plan learning activity based on curriculum, ability to perform educative learning, and ability to use technology and communication. | 98 | 83.33 | Effective |
| Teacher has professional competences which consist of: mastering topic, structure, concept, and scientific mindset that support the taught subject. | 97 | 82.14 | Effective |
| School principal has managerial competences which comprised: planning, developing organization, leading school-related activities, creating conducive and innovative culture, managing teacher and educational staff, and managing facility-infrastructure and relation of school and community. | 98 | 83.33 | Effective |
| Academic qualification of school's administrative staff is minimally a graduate of secondary school based on the assigned job. | 98 | 83.33 | Effective |
| TOTAL | 687 | 585 | |
| Average | 98.14 | 83.5 | Effective |

Based on score in all indicators of Human Resource Management at SMP Widyakrama in Telaga Biru Sub-district, Gorontalo District, the following is a graphic for its explanation.

The score for all human resource management indicators at SMP Widyakrama, Telaga Biru Sub-district, Gorontalo District, based on academic qualification indicator reveals that teachers have a minimum qualification of Bachelor's Degree and achieves score of 99 or 84.52% in strongly effective category, teacher certificates indicator reveals that teachers who teach at school have a professional certificate and achieves score of 99 or 84.52% in strongly effective category, educational background indicator reveals that teachers who teach according to educational background achieves score of 98 or 83.33% in effective category, teacher competency indicator reveals that teachers have a pedagogical competence with score of 98 or 83.33% in effective category, teachers teach based on professional competence with score of 97 or 82.14% in effective category, principal has managerial

competence with score of 98 or 83.33% in effective category, school has administrative staff with a minimum qualification of Senior High School with score of 98 or 83.33% in effective category. The score of academic qualification is 99 or 84.52% in strongly effective category, teacher certificates was 99 or 84.52% in strongly effective category, educational background is 98 or 83.33% in effective category, teacher pedagogical competence is 98 or 83.33% in effective category, teacher professional competence is 97 or 82.14% in effective category, principal managerial competence is 98 or 83.33% in effective category and school administrative staff is 98 or 83.33 in effective category.

Thus the indicator of human resource management at SMP Widyakrama, Telaga Biru Sub-district, Gorontalo District obtained an average score of 98.14 or 83.5 in the effective category.

The result of previous analysis is supported through interview with the following informants:
How does teacher develop learning material to facilitate student in understanding the material?

Result of interview with teacher as informant generated the following information:

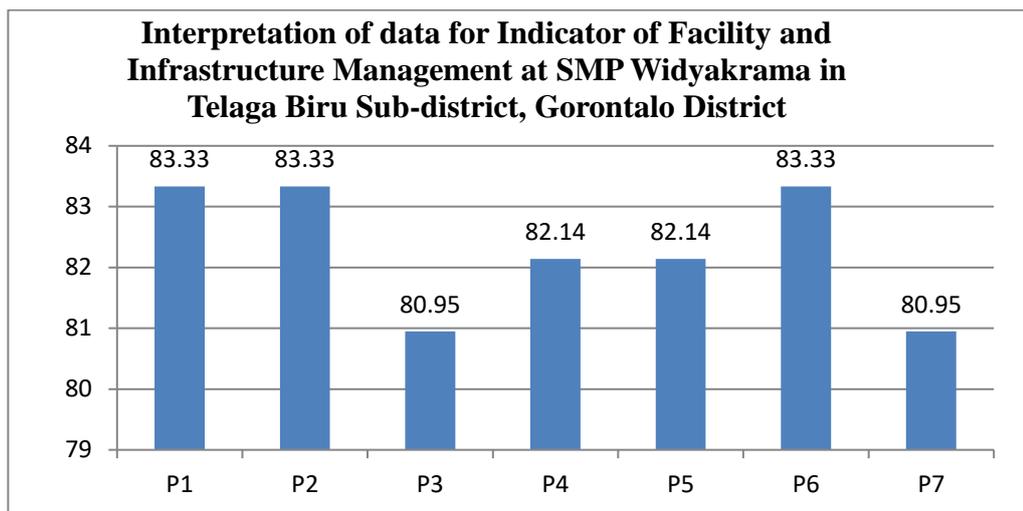

Learning material is a learning component that plays an essential role to direct students to achieve the learning goal or objective as set. In addition, the learning material contains certain aspects which are expected to be able to guide students to behave well. These aspects include logic, ethics, and aesthetics. These three are knowledge of learners about the consideration that must be taken when doing certain activities. Through mastery of the aspects, they will have choices regarding good behavior they should perform and bad behavior they should avoid. More than that, students can have advantages in realizing a beautiful and meaningful life, as determined in the collective expectation that is universally stated in the goal of education. (W/FD/29/07/2020)

c. Facility and Infrastructure Management

Table: 1.3 Interpretation of data for Indicator of Facility and Infrastructure Management at SMP Widyakrama in Telaga Biru Sub-district, Gorontalo District

| Sub-indicator | Respondent Score | Percentage (%) | Assessment Criteria |
|--|------------------|----------------|---------------------|
| School's building meets certain criteria such as stable and sturdy construction and has fire prevention and air pollution prevention systems. | 98 | 83.33 | Effective |
| School has classroom with size and facility that are in accordance with provisions. | 98 | 83.33 | Effective |
| School has library whose wide and facility are in accordance with provisions | 96 | 80.95 | Effective |
| School has laboratory based on the required size completed with props such as: human skeleton model, globe, solar system model, and various kinds of mirror | 97 | 82,14 | Effective |
| School has complete teacher's room with following facilities: chair, work table, cupboard, guest chair, statistics board, notice board, and clock | 97 | 82.14 | Effective |
| School has head's room equipped with following facilities: chair, table, cupboard, statistics board, state symbols, garbage bin, and clock | 98 | 83.33 | Effective |
| School has School Health Unit based on provisions and equipped with following facilities: bed, cupboard, table, chair, health equipment, stretcher, blanket, scale, thermometer, and hand washing facility | 96 | 80.95 | Effective |
| TOTAL | 680 | 576 | |
| Average | 97.14 | 82.31 | Effective |

Based on score in all indicators of Facility and Infrastructure Management at SMP Widyakrama in Telaga Biru Sub-district, Gorontalo District, the following is a graphic for its explanation.

The score for all indicators of facility and infrastructure management at SMP Widyakrama, Telaga Biru Sub-district, Gorontalo District, based on school building area is: the school has a building according to the provision with score of 98 or 83.33% in effective category, classroom according to the provision along with facilities with score of 98 or 83.33% in effective category, library according to the provision along with facilities with score of 96 or 80.95% in effective category, laboratory according to the size based on the provision with score of 97 or 82.14% in effective category, teacher's room according to the provision with score of 97 or 82.14 in effective category, head's room with score of 98 or 83.33%, and School Health Unit with score of 96 or 80.95%.

Thus the indicator of facility and infrastructure management at SMP Widyakrama in Telaga Biru Sub-district, Gorontalo District obtained an average score of 97.14 or 82.31 in effective category.

The result of previous analysis is supported through interview with the following informants: How is the school's preparation to procure facility and infrastructure?

The interview with the school principal or informant results in the following explanation.

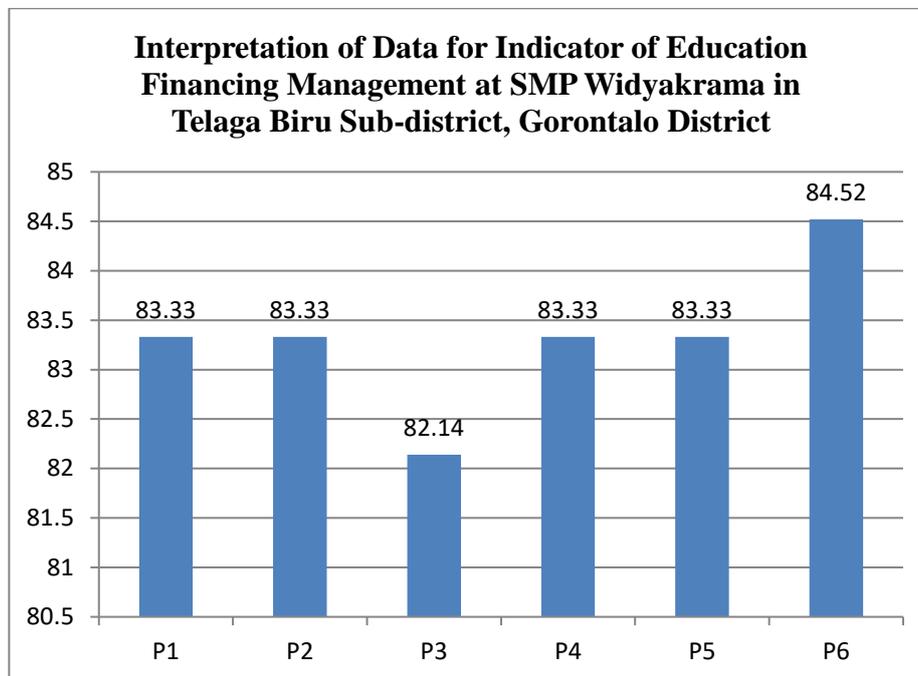

Preparation of procurement plan for educational facility and infrastructure needs is an activity carried out by the school through organization of planning meeting and data collection on the needed facility and infrastructure. Based on a result of interview conducted with the principal and person in charge for facility and infrastructure, they initially conducted a planning meeting prior to procuring educational facility and infrastructure. The principal confirmed an importance of careful and coordinated planning to have a collective decision through data collection analysis and priority scale determination to be adjusted with school budget (W/HP/5/07/2020).

Table:1.4 Interpretation of data for Indicator of Education Financing Management at SMP Widyakrama in Telaga Biru Sub-district, Gorontalo District

| Sub-indicator | Respondent Score | Percentage (%) | Assessment Criteria |
|--|------------------|----------------|---------------------|
| School has the last 3-year work plan which contains budget for investment and consisted of: development of facility and infrastructure, development of teacher and educational staff | 98 | 83.33 | Effective |
| School has the last 3-year work plan which contains budget for both operating expenses and non-operating expenses that consisted of: stationary, consumables, small-scale maintenance, power, and service, as well as extracurricular activity | 98 | 83.33 | Effective |
| School has a complete document of facility and infrastructure investment | 97 | 82,14 | Effective |
| School has a financial bookkeeping in the last 3-year which consisted of: cash book, subsidiary book, and tax book | 98 | 83.33 | Effective |
| School spends the budget for the last 3-year reporting | 98 | 83.33 | Effective |
| School has financial accountability and submits it to the government, parents, and committee | 99 | 84.52 | Effective |

| | | | |
|----------------|------------|--------------|------------------|
| TOTAL | 588 | 499 | |
| Average | 98 | 83.33 | Effective |

Based on score in all indicators of Education Financing Management at SMP Widyakrama in Telaga Biru Sub-district, Gorontalo District, the following is a graphic for its explanation.

The score for all indicators of education financing management at SMP Widyakrama, Telaga Biru Sub-district, Gorontalo District based on budget work plan is: the school has a budget plan for the last 3 years with score of 98 or 83.33% in effective category, the school has a budget plan for the last 3 years for operating and non-operating expenses with score of 98 or 83.33% in effective category, the school has a complete facility and infrastructure document with score of 97 or 82.14% in effective category, the school has financial bookkeeping for the last 3 years which includes cash book, subsidiary book with score of 98 or 83.33% in effective category, the school spends its budget for the last 3 years with score of 98 or 83.33% in effective category, and the school has a financial accountability with score of 99 or 84.52% in effective category.

Thus the indicator of education financing management at SMP Widyakrama, Telaga Biru Sub-district, Gorontalo District obtained an average score of 98 or 83.33% in effective category.

The result of previous analysis is supported through interview with the following informants:

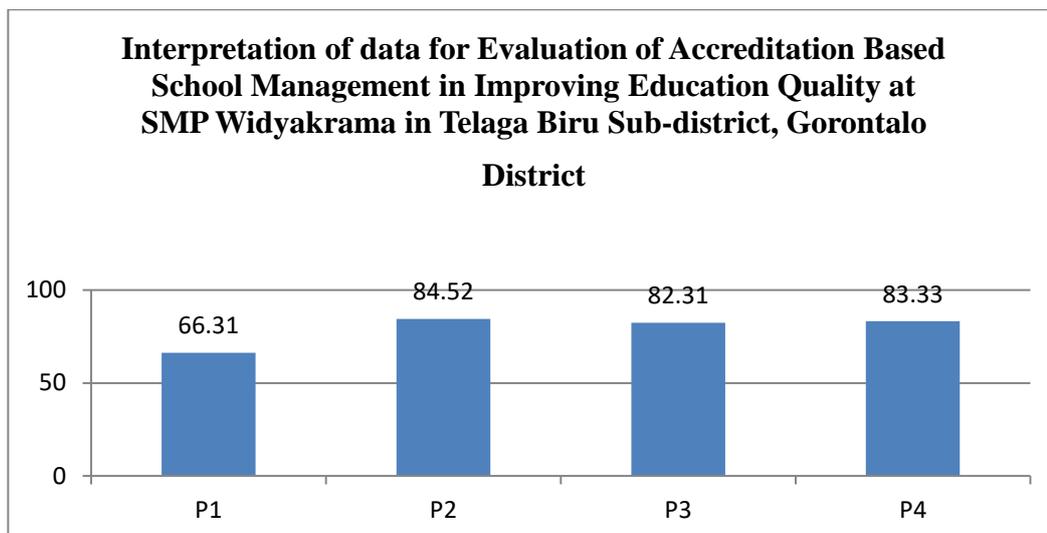

The interview with the school principal or informant results in the following information:

The deconcentration fund and grant from the central government are deemed sufficient to assist school in the teaching and learning process related to school operating expenses, so that school no longer need to collect fees from students as they have been sufficiently helped through government assistance. In other words, school assesses School Operational Assistance or known as BOS fund from the central government to be helpful for parents and school to finance the education despite its insufficiency. (W/HP/8/07/2020)

Table: 1.5 Interpretation of data for Evaluation of Accreditation-Based School Management in Improving the Quality of Education at SMP Widyakrama in Telaga Biru Sub-district, Gorontalo District

| No | Indicator | Respondent Score | Percentage (%) | Assessment Criteria |
|----|--|------------------|----------------|---------------------|
| 1 | Curriculum Management | 98 | 66.31 | Effective |
| 2 | Human resource management | 99 | 84.52 | Effective |
| 3 | Facility and infrastructure management | 97 | 82.31 | Effective |
| 4 | Education financing management | 98 | 83.33 | Effective |
| | TOTAL | 98 | 79,2 | Effective |

Based on score in all scores for indicators of Education Financing Management at SMP Widyakrama in Telaga Biru Sub-district, Gorontalo District, the following is a graphic for its explanation:

The score for all indicators of accreditation-based school management in improving the quality of education at SMP Widyakrama in Telaga Biru Sub-district, Gorontalo District based on the aspect of curriculum management is 98 or 66.31% in effective category, human resource management is 98 or 83.33% in effective category, facility and infrastructure management is 97 or 82.31% in effective category and education financing management is 98 or 83.33% in effective category. So that the total of result for analysis of the evaluation data on accreditation-based school management in improving the quality of education at SMP Widyakrama, Telaga Biru Sub-district, Gorontalo District is 98 or 79.2% in effective category. Meanwhile, the remaining 20.8% is influenced by other factors such as: an ability of teacher to master the curriculum and inadequate school building land so that the provision of library and laboratory still does not meet the requirements.

DISCUSSION

One of the efforts to improve quality of graduate and basic education carried out by the Minister of National Education is to issue Decree No. 087/U/2002 concerning School Accreditation. This decision is later supported by Law No. 20 of 2003 concerning National Education System that is elaborated in Government Regulation No. 19 of 2005 concerning National Education Standard. The previous decree clearly designates all schools, both public and private, to be accredited. This is a great progress since previously the Directorate General of Primary and Secondary Education through decree of Director General No. 020/C/Kep/1/1983 states that accreditation is only applied to private schools. Likewise, the accreditation process may reveal accountability of education providers in basic education level based on school's accreditation ranking. This is in accordance with paragraph 2 Article 60 of Law No. 20 of 2003 which states that the accreditation of educational program and unit is carried out by the government and and or independent institution that are authorized as a form of public accountability. The accreditation ranking must truly describe the quality of school so that the community obtains a clear picture of the quality of the school.

A. Curriculum Management at SMP Widyakrama in Telaga Biru Sub-district, Gorontalo District.

The indicator of curriculum management at SMP Widyakrama, Telaga Biru Sub-district, Gorontalo District obtains an average score of 97.7 or 66.31 in effective category. Curriculum management is associated with managing learning experiences that require specific strategies to produce learning productivity for students. In addition, it must be administered so that the learning process runs well, by measuring achievement of goal by students so that educational goal can be achieved.

The research finding at SMP Widyakrama show that the preparation for school accreditation has been appropriate with the accreditation mechanism such as (a) commenced by establishment of an accreditation team consisting of principal, teacher, educational staff, and committee in which the principal conducted socialization about accreditation to the school member, (b) the accreditation team grouped and

classified data and documents for each standard, (c) the team prepared for the implementation of visitation and started from preparation of school profile broadcast material to be delivered by the principal, (d) the simulation of accreditation assessment is carried out by the school well, (e) creation of togetherness, enthusiasm, hard work, and sincerity in preparing the accreditation.

The result of accreditation can also be noticed from condition of the national education standard at SMP Widyakrama in which the entire standards are in good condition. The school always maintains and monitors the conditions for each standard. Eventually, it leads a good accreditation result. For content standard, the school has organized Education Unit Level Curriculum (KTSP). The implementation of the curriculum can be observed from activity of teacher in preparing learning activity tools such as syllabus, lesson plan, educational calendar, and other documents. Therefore, the standard of graduate competence at the school is trusted as the competence of their students is highly competitive with other school graduates. Indicators of school's competency standard are graduation rate and number of students who continue to higher education. In this case, the annual graduation rate at SMP Widyakramais 100% and they continue to a higher level of education.

B. Human Resource Management at SMP Widyakrama in Telaga Biru Sub-district, Gorontalo District.

Indicator of human resource management at SMP Widyakrama, Telaga Biru Sub-district, Gorontalo District obtains an average score of 98.14 or 83.5 in effective category. The management of educational staff is basically aimed at creating an integrated school system, where management is carried out thoroughly and continuously to create an effective and efficient education. Through an integrated management mechanism, it is expected that teacher and other staff will be able to work together in achieving educational goal, because these two professions are an integral part of the education system, both of which have functions and tasks that support one another. The management includes a managerial system, coaching and development of teacher and educational staff. The coaching and development aim to improve the quality of education through various programs that have been implemented by schools in order to improve the competence of teacher/ educational staff. This is due to the fact that they have a strategic role in the efforts to build character of nation and improve the quality of human resources which are important aspects in the era of globalization. This can be noticed from the meaning of teacher and educational staff as stated in article 39 of Law No. 20 of 2003 in paragraph (1) and (2) concerning the National Education System.

C. Facility and Infrastructure Management at SMP Widyakrama in Telaga Biru Sub-district, Gorontalo District.

The indicator of facility and infrastructure management at SMP Widyakrama, Telaga Biru Sub-district, Gorontalo District obtains an average score of 97.14 or 82.3 in effective category. One aspect that becomes main attention of every education administrator is regarding educational facility and infrastructure. The Educational facility generally include all equipments used to support the educational process which must be in accordance with the learning process, such as building, classroom, educational tool or media, table, chair and so on. They are all facilities needed in the teaching and learning process, both mobile and immobile in order to achieve educational goal and run smoothly, regularly, effectively and efficiently. Meanwhile, infrastructure is facility that indirectly supports the educational process, such as: a good yard for learning, calming garden or park, accessible road to school, school rule, and so on.

(Mulyasa & Mukhlis, 2007, p. 49) in general, educational infrastructure are a set of main support in the educational process so that educational goals are achieved, while educational facilities are anything that can be used as a tool or media in achieving educational goal or objective. Management of educational facilities and infrastructure can be defined as a collaborative process for the effective and efficient use of all educational facilities and infrastructure (Ibrahim, 2003). This definition shows that the existing facilities and infrastructure at school need to be utilized and managed for the benefit of the learning process at the school. The management is intended to ensure that the use of facilities and infrastructure at school can run effectively and efficiently. Management of school facilities and infrastructure is carried out through a series of processes starting from planning, organizing, mobilizing, maintaining, to monitoring. Everything that is needed by the school needs to be planned carefully with regard to the facilities and infrastructure that support all learning processes.

D. Education Financing Management at SMP Widyakrama in Telaga Biru Sub-district, Gorontalo District.

Indicator of education financing management at SMP Widyakrama, Telaga Biru Sub-district, Gorontalo District obtains an average score of 98 or 83.33 in effective category. Education financing standard is the minimum costs required for an educational unit to carry out educational activities for one year. The costs include investment cost, operating cost, and personal cost. The financing standard is regulated in the Decree of Ministry of National Education (Nasional, 63 C.E.) (Nasional, 2007). The decree regulates the minimum costs that must be spent for each education unit and path. Non-personnel operating costs include: school stationery cost, material and consumable costs, minor maintenance and repair costs, power and service costs, transportation or business travel cost, consumption cost, insurance cost, student coaching or extra-curricular cost, competency test cost, industrial job training cost, and reporting cost.

E. Evaluation of Accreditation Based School Management in Improving Education Quality at SMP Widyakrama in Telaga Biru Sub-district, Gorontalo District

The evaluation of accreditation-based school management in improving the quality of education at SMP Widyakrama, Telaga Biru Sub-district, Gorontalo District obtains a score of 98 or 79.2% in effective category. Meanwhile, the remaining 20.8% is influenced by other factors such as: an ability of teacher to master the curriculum and inadequate school building land so that the provision of library and laboratory still does not meet the requirements. The result of accreditation of an educational institution has several benefits, including the following: (a) as a reference in efforts to improve the quality of education and school development plan, (b) input material for empowering and developing the performance of school member, (c) motivation to improve school quality gradually, (d) instead of being a quality school, the accredited school also receives support from the government, society and private sector. In regards of the result of accreditation, a research conducted by Andre (2007) and the research conducted at SMP Widyakrama have similarities and differences. Both discussed the result of accreditation particularly the impact. However, the research conducted by Andre (2007) revealed that the result of accreditation was able to improve quality management, while the research conducted at SMP Widyakrama found that the result of accreditation had an impact on improving condition and quality of national education standard from human resource, facility and infrastructure to their management system. The result of the accreditation has made the facility and infrastructure complete as the school provided various facilities and infrastructure that support the learning activities. The financing activity at SMP Widyakrama went well in which the government also provided financial support. Every year the source of fund received by the school increases. In addition, the community did not mind to being fully involved in the planning, implementation and supervision processes. In addition, the result of the accreditation is also needed by the principal of as recommendation for the preparation of program and the school/ *madrasah* income and expenditure budget. For teachers, the result of accreditation is an encouragement to always improve themselves and work hard to provide the best service for the students. Morally, teachers are willing to work in good environment and recognized school/ *madrasah*, therefore, teachers always try to improve themselves and endeavour to maintain and improve the quality of school. The findings confirm that the implementation school accreditation requires lots of effort to deal with various problems. (Depdiknas, 2008) The problems include the rush of preparation made by school, insufficient physical evidence, incomplete accreditation guideline, insufficient time of the school to conduct self-evaluation and lack of coordination and communication between individual and team. According to Hendarman (2014: 80), the problems occur during school accreditation are related to aspects of concept, instrument, infrastructure, administration, and human resource. Additionally, it is identified that the problems appeared due to the school do not have a proper preparation in carrying out the accreditation properly. The school should have made a careful preparation and plan in three months prior to the implementation of accreditation as well as they should not belittle the process.

4. Conclusion

Based on the research finding and discussion, the following conclusions are drawn: 1. fulfillment of National Education Standard by SMP Widyakrama for all accredited indicators reaches the maximum average score or is categorized as the effective as function of all components in the learning process is very good. The community's demands for school to continue to improve the quality of education must be responded wisely and quickly and it should be followed by continuous development and improvement in all education management aspects including student management, teacher and educational staff, curriculum and learning, facility and infrastructure, finance, and school and community relation. Therefore, the government performs sustained attempts to achieve the improvement of quality of education and one of them is through school

accreditation. 2. Follow-up on school accreditation result is carried out through a mechanism of final discussion with the principal to make strategic decision about unsolved problems.
