Dear Mrs Reni Hiola,

We have reached a decision regarding your submission to International Journal of Applied Pharmaceutics, "DEVELOPMENT OF EFFERVESCENT GRANULE OF CORN MILK, SUPPLEMENTED WITH PROBIOTICS LACTOBACILLUS STRAIN SHIROTA" with reference no. IJAP 27459.

Article is quite interesting but it needs major revision

Comments-

For revision of your article see the following points

Minor Comments

- Format:- Revise article to make it strictly as per format of the Journal. Refer latest issue of the Journal for formatting.
- Abbreviations:- At the first appearance in the abstract and as well as in the text, abbreviations should be preceded by words for which they stand, for example, cardio vascular disease (CVD) etc. These abbreviated forms should be used uniformly in the whole manuscript to maintain the consistency and uniformity.
- Symbol and units: It should be as per International System of Units (SI). See it in instructions to authors and follow accordingly and strictly.
- Equation tools should be used for formula/equation writing.
- Errors: Grammatical and punctuation errors should be rectified. Authors are suggested to use smart tools like 1 checker, ginger, grammarly, white smoke, etc.
- Fig: Ensure that titles at x and y axis are in sentence case and bold.
- Ensure that biological names (plants/crude drugs/bacteria/fungus etc) are in italic in whole manuscript including reference also.
- References: References are out of format. Uniformity must be ensured in all the references. It should be made strictly as per Instructions to Authors. Journal's title should be abbreviated without use of full stop.
- Pagination style is incorrect in references. Authors should refer any latest published article in IJAP. Digit appeared in starting page number should not be repeated in end page number. Ex. 12-5, 25-32, 125-7, 11456-62 etc.

Major Comments

This research aimed to development of Effervescent Granule of Corn Milk, Supplemented with Probiotics Lactobacillus strain Shirota. Before being considered for publication, some adjustments should be done.

Please, find below the description of review process:

- 1- Check English grammar level throughout the script.
- 2- In the introduction, besides introducing the corn, more data could be added to show how popular the corn milk for people such as the amount of consumption in the world, the export. This will reveal how important the work you have done.
- 3- Why sweet corn harvested 23rd day after silking of the corn plant? Please specify.
- 4- The extraction of corn seeds should completely describe.
- 5- Correct throughout the script: Lactobacillus strain Shirota change to Lactobacillus Shirota
- 6- The reason of designated formulation or more used references should be included in the script.
- 7- There is no need some sentences be bolded in the script.

8- Details are needed on the trained panel evaluation e.g. training of panelists for these samples, determination of taste and odor thresholds of panelists, number and type of training samples, number of training sessions. number of samples per training session, number of testing sessions, number of samples per testing session, coding of samples, environmental training and testing conditions.

9- The experimental design and model for the ANOVA should be described.

10- Avoid extensive citations and discuss published literature.

(All the changes made must be highlighted with RED coloured fonts or it should be done in track change mode).
