Dear Andi Yusniar 109340

Thank you for your recent reviewer suggestions. Unfortunately, not all of them meet our [reviewer criteria](#). We have listed below any that fall outside the criteria, with the specific reason:

Mohd Shahidan Shaari, Hj Abdul Rahim Hj Ridzuan:

It appears that you or your co-authors have collaborated with them relatively recently. In order to ensure an unbiased peer review process, there can be no conflicts of interest between the reviewers and authors. Please note that this includes sharing an affiliation.

We have been able to approve 4 reviewers from 2 counties (Malaysia, Indonesia) for your article.

Before we can publish your article, we will need suggestions for at least 5 reviewers who meet our criteria. Please note that we strongly encourage authors to suggest geographically-diverse reviewers to gain an international perspective on the article, and ideally we would have at least 5 reviewer suggestions from at least 5 different countries. We recommend you suggest as many names as you can, as the more names suggested the higher the chances of getting your article reviewed. Please visit your [Suggest Reviewers page](#) to add your suggestions and to access our short guide on [tips for finding referees](#), which includes a full description of the suitability criteria.
